SheetSpeed Terms of Service

Effective: 10 November 2026. Operator: Philip Dressler, California, USA.

1. The service

SheetSpeed is a Chrome extension that adds keyboard shortcuts and formula tools to Google Sheets, Docs and Slides. SheetSpeed Core is free. SheetSpeed Pro is a paid upgrade that is currently free during early access (section 3). SheetSpeed is not affiliated with Google, Microsoft, SheetWhiz, or Macabacus.

2. License

We give you a personal, non-exclusive, non-transferable license to use SheetSpeed. You may not resell it, reverse-engineer its paid features, or share license access beyond your plan.

3. Early access

During Pro Early Access, all Pro features are free for everyone. Before any paid plan begins, we will give notice in the extension and on the SheetSpeed website. Nobody is charged unless they start a subscription themselves; nothing converts to a paid plan automatically. If you don't subscribe when early access ends, Pro features stop and Core stays free.

4. Accounts and payments

When billing opens, Pro will be sold through ExtensionPay, which processes payments with Stripe. Plans: monthly ($7.99), yearly ($69), and a limited lifetime offer ($149, one-time). Subscriptions renew automatically until you cancel. Prices may change with 30 days' notice. The new price applies at your next renewal. ExtensionPay and Stripe are not used during early access.

5. Free trial

Once billing opens, new users get a 14-day Pro trial. It does not apply during early access, when Pro is already free. No card is required. When the trial ends, Pro features stop unless you subscribe. Core features stay free.

6. Cancellation and refunds

See the Refund Policy. You can cancel at any time from the extension's “Manage subscription” link once billing opens.

7. Your data

SheetSpeed runs in your browser. It does not send your documents to a SheetSpeed server. Pro tools call Google APIs from your browser after you connect. Refresh from Sheets uploads a temporary image of the exported range to your Google Drive and then deletes it. Docs shortcuts are processed locally on the page. See the Privacy Policy.

8. Disclaimer

SheetSpeed is provided “as is”. Always check model outputs, including goal seek, data tables, and pasted formulas, before you rely on them. Google may change Sheets in ways that break some features temporarily.

9. Limitation of liability

To the extent the law allows, our total liability arising out of or relating to SheetSpeed or these terms is limited to the amount you paid us for SheetSpeed in the 12 months before the claim, and in no event more than $1,000. If you have paid us nothing in that period, that amount is $100. We are not liable for indirect, incidental, special, or consequential losses, or for lost profits, lost revenue, or lost data, except to the extent the law does not allow that exclusion. A written order form signed by both parties may set a different cap for that customer only. This cap does not limit liability that the law does not let us limit, including liability for fraud, gross negligence, or willful misconduct.

10. Termination

We may suspend access if these terms are abused. You may stop using SheetSpeed at any time.

11. Governing law

These terms are governed by the laws of the State of California, USA, without regard to conflict-of-law rules.

12. Changes

We will post updated terms on this page and change the effective date.
